- COLD AND HOT WATER
COLD AND HOT WATER WAS
TESTED IN AMBIENT TEMP 90°F
WATER INLET TEMPERATURE 80°F

CABINET

One piece UV-Protected ABS injection molded cabinet. Easily removable for access to interior components. Variety of color options to suit any residential or commercial setting.

COLD WATER TANK

Hygienic stainless steel tank. External copper refrigerant coil. Reservoir insulation is removable. The Bottle Guide(Cabinet top adapter) mounted on the reservoir of the cooler seals the reservoir, preventing bugs-as well as dust and dirt-from entering the unit. Temperature is controlled by adjustable thermostat easily accessible on the rear of cabinet.

HOT WATER SAFETY FAUCET

Self-closing faucet requires a two-step action easy for adults to use and helps prevent children from accessing the water. (US patented)

HOT WATER TANK

Energy saving construction. Hygienic stainless steel tank with a highly efficient internal heating element. Non-adjustable thermostat with a manual reset safety limiter. Convenient hot water ON/OFF switch.

FRAME

Heavy gauge galvanized steel frame provides strength and support. The condenser functions as a back support which permits easy removal of cabinet for maintenance and refurbishment.

LG BRAND COMPRESSOR

All Clover coolers come standard with a LG brand compressor. Each cooler has LG's highest quality compressor with the low cycle rates. (manufactured in South Korea not China).
