- COLD AND HOT WATER
THE ABOVE RATES TESTED IN AMBIENT TEMP 90 °F
WATER INLET TEMPERATURE 90 °F

CABINET

Top and front panels are molded of ABS and side panels are of electric zinc-coated steels with High Polymer Polyester resin.

COLOR

Available in Premium Black.

FAUCETS

Easy to use, durable polypropylene self-closing faucets.
Standard safety hot water faucet.

DRIP TRAY

Removable drip tray with an anti-splash grid. Designed to withstand high impact use.

ELECTRICAL

220V~240V (±10%) 50/60 Hz,
100V~127V (±10%) 50/60 Hz Provided with power cord. Units for other power supplies available upon special order.

COLD WATER TANK

Hygienic stainless steel.

COLD WATER THERMOSTAT

Easily control the temperature from 39.2°F ~ 50°F by using the adjustable, easily located thermostat on the back panel

REFRIGERATION UNIT

Convection cooled condenser, internally spring mounted hermetically sealed compressor with an automatic overload protector. No lubricant needed. Refrigerant is controlled by accurately calibrated capillary tube.

LG BRAND COMPRESSOR

All Clover coolers come standard with an LG brand compressor. This is LG's highest quality compressor with lowest cycle rates (manufactured in South Korea not China).

HOT WATER TANK

Hygienic stainless steel tank with a highly efficient internal heating element.

HOT WATER THERMOSTAT

B14A Water Temperature is controlled to nearly 185°F by an automatic thermostat. The ON/OFF switch is easily accessible on the rear control panel.

HOT WATER THERMOSTAT

THE ABOVE RATES TESTED IN AMBIENT TEMP 90°F WATER INLET TEMPERATURE 90°F

Exclusive Features

HOT WATER SAFETY FAUCET

Cup Dispenser

Easily attach on the side of cabinet
